Boil Water Notice for Community Public Water Systems
March 8, 2026

Due to a line break on Pecan Drive, the Texas Commission on Environmental Quality has required the Dog Ridge Water Supply Corporation public water system to notify all customers to boil their water prior to consumption (e.g., washing hands/face, brushing teeth, drinking, etc). Children, seniors, and persons with weakened immune systems are particularly vulnerable to harmful bacteria, and all customers should follow these directions).

This ONLY applies to the streets/addresses listed below:

Sherwood Boulevard	Cedar Drive	Lantana Drive
Pecan Drive	Live Oak Loop	Sherwood Drive
Mistletoe Drive	Mulberry Drive	Orchard Hill Drive
Sherwood Loop	Teakwood Lane	Swanson Lane
Harmony Loop	Kimberly Drive	Goodrich Drive
Sandlin Drive	Camelot Lane	Ridgeport Lane
Brigadon Lane	Grant Drive	D and G-10 Road

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to use for drinking water or human consumption purposes. The water should be brought to a vigorous rolling boil and then boiled for two minutes.

In lieu of boiling, individuals may purchase bottled water or obtain water from some other suitable source for drinking water or human consumption purposes.

When it is no longer necessary to boil the water, the public water system officials will notify customers that the water is safe for drinking water or human consumption purposes.

Once the boil water notice is no longer in effect, the public water system will issue a notice to customers that rescinds the boil water notice in a manner similar to this notice.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions concerning this matter, you may contact Amber Dulle at 254-939-6533. This boil notice is expected to be in effect until at least Tuesday, March 10, 2026. On Monday, March 10th, water samples will be taken to a testing facility located in Round Rock. When we have the results back on Tuesday, we will update our customers.
