

**Failure to submit a Disinfectant Level Quarterly Operating Report (DLQOR)
MONITORING, ROUTINE (DPB), MAJOR/CHLORINE**

The DOG RIDGE WSC water system PWS ID 0140044 has violated the monitoring/reporting requirements set by the Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administration Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This/These violation(s) occurred in the monitoring period(s) **2nd Quarter 2022, (April, May, June 2022).**

We are taking the following actions to address this issue:

Samples HAD been taken; however, the DLQOR was not mailed within the allotted time frame. This notice has been mailed to our customers, posted on our Web Site & displayed in our office.

Please share this information with all people who drank this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Michelle Cortez at 254-939-6533.
