To ensure the destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous rolling boil and continue boiling for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable course.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact the DRWS office at (254) 939-6533 before 4:45pm.

If you wish to contact TCEQ, you may call (512) 239-4691.
